A Stampede is here!

Stampede® Hybrid Buffalo is the next evolution in premium buffalo turf, developed to deliver improved resilience and reliability in Australian conditions.

Through advanced hybrid breeding, Stampede brings together proven genetics and next-generation performance to deliver outstanding results year-round.

Stampede has improved winter performance and colour retention, allowing it to hold its appearance longer through cooler months compared to traditional buffalo varieties.

Stampede delivers strong establishment, vigorous growth and excellent recovery, enabling it to handle wear, repair quickly and establish with confidence after installation. The result is a robust, high-performing buffalo lawn built to thrive year-round.

Drawing on the best traits of elite buffalo genetics, Stampede offers improved disease resistance, helping it stay healthier and looking better for longer, even under challenging conditions. This makes it a smart choice for both residential and commercial landscapes where consistent performance is essential.

How do you know it's genuine Stampede?

To ensure you are purchasing Stampede Hybrid Buffalo, always be sure you are purchasing from a Lawn Solutions Australia member or accredited Lawn Solutions Centre. Look for the Stampede Hybrid Buffalo logo and be sure to check you have received a AusGAP Certificate of Authenticity with your order.

This certificate ensures that you, the customer, have purchased authentic Stampede Hybrid Buffalo instant lawn and not an imitation product. You can confirm if you have purchased genuine Stampede Hybrid Buffalo by contacting AusGAP on 1300 287 599 or by visiting ausgap.com.au to clarify if the company you purchased from is accredited.
